

Issue: Application of technology is used to replace and radicalize common space.

Thoughts:

- consumption society?
- how much people are getting out in recent years compared to previously (mostly young people?)
- political divisiveness statistics
- 80% of communication happens nonverbally

Goals:

- Facilitate f2f interaction, NOT replace it
-

Offerings / Potential Solutions

Community Hub:
Event listings

Shopping:
Connect local producers with local consumers

Explore:
Algorithmic feature to suggest relevant things?
Could work both producer/ consumer directions

Organizations:
Participate in a local community based on verification
